I filled out the paperwork regarding my home value, I know I had put on the paperwork that my basement had been flooded, I forgot to mention that the basement has black mold all over, my insurance company wouldn't help with any of it, they had said to talk with FEMA, I tried reaching them but couldn't get them. I just wanted to make sure you get all the information about this. I did mention in the paperwork about the roof, insurance company wouldn't take care of it either. The roof leaks specially from back last year on March the 15th we had 60-70mph high winds with damaging hail.

Thank you, sincerely,
Bonnie J. Lampela
