A) PROPERTY DESCRIPTION

The subject property is located at 3120 Market Place, in Ashtabula, Ohio. The total land area of the subject site is approximately 1.639 acres. The site is irregular in shape. Public utilities are available to the subject site. Attached hereto is a location diagram, plot map and site plan, which further describes the location of the subject site. **See Exhibit A**

In 2005, the subject site was improved with a one (1) retail strip center building. The building is one story in height. As of tax lien date, the building was utilized as a strip center and is part of the Home Depot Plaza. Home Depot is on a separate parcel and not a part of this complaint. The exterior construction features include the following: split block exterior walls, a concrete slab foundation and a flat roof. **See Exhibit B** for a photograph of the subject real property. The building is further described in the County's information. **See Exhibit C.**

The county records indicate that the building has a total gross building area of 18,468 square feet. The total net rentable area is 18,466 square feet. As of January 1, 2023, there were three spaces vacant (9,094/sf) for 49.25% physical vacancy. As of January 1, 2024, there were three spaces vacant (9,094/sf) for a 49.25% physical vacancy. Additionally, there is paving for drives and surface parking.

The interior of the units are finished for retail use. There are six units. The finish varies among the tenant's spaces. Generally, there are painted drywall walls, vinyl covered and carpeted floors, separate heat and air conditioning. The units are sprinklered. The building was in average condition considering its age.

B) INCOME APPROACH TO VALUE

In the income approach to valuation, the income stream of a property is capitalized into an estimate of market value. There are several factors that must be analyzed in determining the income stream. These factors are: rental income, vacancy factors, operating expenses and reserves for replacement.

The actual income is reviewed to determine whether it reflect market rent. Actual vacancy factors were reviewed to determine whether they reflect market conditions. Additionally, the actual operating expenses were also reviewed. In the review of expenses, the following expenses were deducted: real estate taxes, interest, debt service and depreciation. A potential purchaser would review all these factors in order to determine the value of the subject property.

C) REVIEW OF ACTUAL FINANCIAL INFORMATION

Attached hereto are the financial statements for the subject real property for the tax years 2021, 2022 and 2023. **See Exhibit D.** Also attached hereto is a 2023 Rent Roll which shows the tenancy and contract rent. **See Exhibit E.**

The actual income and expenses (exclusive of interest, depreciation and real estate taxes) have been as follows:

	2021	2022	2023
Income	\$175,745	\$143,969	\$123,939
Less: RE Tax Reim	<u>\$ 13,824</u>	<u>\$ 13,849</u>	<u>\$ 8,299</u>
Adjusted Income	\$161,921	\$130,120	\$115,640
Expenses	\$ 96,731	\$100,922	\$118,210
Reserve	<u>\$ 9,233</u>	<u>\$ 9,233</u>	<u>\$ 9,233</u>
NOI	\$ 55,957	\$ 19,975	(\$ 11,803)

The subject property is facing vacancy issues and bad debt, which has resulted in declining income. The 2023 net income was negative. The published 2022 Colliers Retail Market Survey information for the Greater Cleveland area is attached. **See Exhibit F.** As a result the Property Owner prepared the following 2023 Pro Forma:

Rental Income	\$175,000
Expenses	\$100,000
Reserves	\$9,233
Net Income	\$65,767

D) RESERVE FOR REPLACEMENT

A Reserve for Replacement is a proper expense item, and has been recognized as such by the Ohio Supreme Court. See Freshwater v. Belmont Cty. Bd. of Revision, 58 Ohio St. 3d 140 (1991). The reserve was estimated at \$.50/sf for an annual reserve of \$9,233. **See Exhibit G** for published reserve information.

E) CAPITALIZATION RATE

Mortgage rates, as of January 1, 2023, ranged from 4.64% to 9.69% with an average term of 6.2 years. **See Exhibit H** for published data on mortgage terms. Returns on equity ranged from 6% to 15%, depending upon risk of investment. The published average loan to value range was reported at 70%. The Property Owner reviewed national published capitalization rate data extracted from Investor's Surveys from Realty Rates. **See Exhibit I** for the Realty Rates' published chart on national capitalization rates. The reported 2022 published national capitalization rate for retail buildings was 9.6% and 9.84% for a composite rate. Based upon the foregoing, it was deemed appropriate to utilize a 9.25% capitalization rate, plus a partial real estate tax additur. The Property Owner paid 80% of the real estate taxes in 2013. The partial real estate tax additur is calculated as follows:

The real estate tax additur is calculated as follows:

R.E. Tax Additur
 $35\% \times .07760439 = .02716154$ say 2.72%

$2.72\% \times 80\% = 2.176$ say 2.2%

$9.25\% + 2.2\% = 11.45\%$

Overall Capitalization Rate is 11.45%

When the Pro Forma net income of \$65,767 is capitalized into value by an overall rate of 11.45%, a value of \$574,384 say \$574,000 is indicated as of January 1, 2023.

F) SALES COMPARISON APPROACH

Attached hereto at **Exhibit J** are sales of retail buildings located in and around Ashtabula, Ohio. These sales were obtained from CoStar a computerized data base of sales. The nine (9) sales range in sales price from \$12/ square foot to \$41/sf. The average sales price was \$27/sf. At **Exhibit K** are Ashtabula retail sales—but due to their age and nature—the Property Owner is not relying on them. Due to the location, age, building size,

nature, vacancy, the structure and condition of the subject building, the Property Owner contends that these sales, would support a value of \$40.50/sf of net rentable building area for a total value of \$750,000. ($\$40.50/\text{sf} \times 18,466/\text{sf} = \$747,873$ say \$750,000).

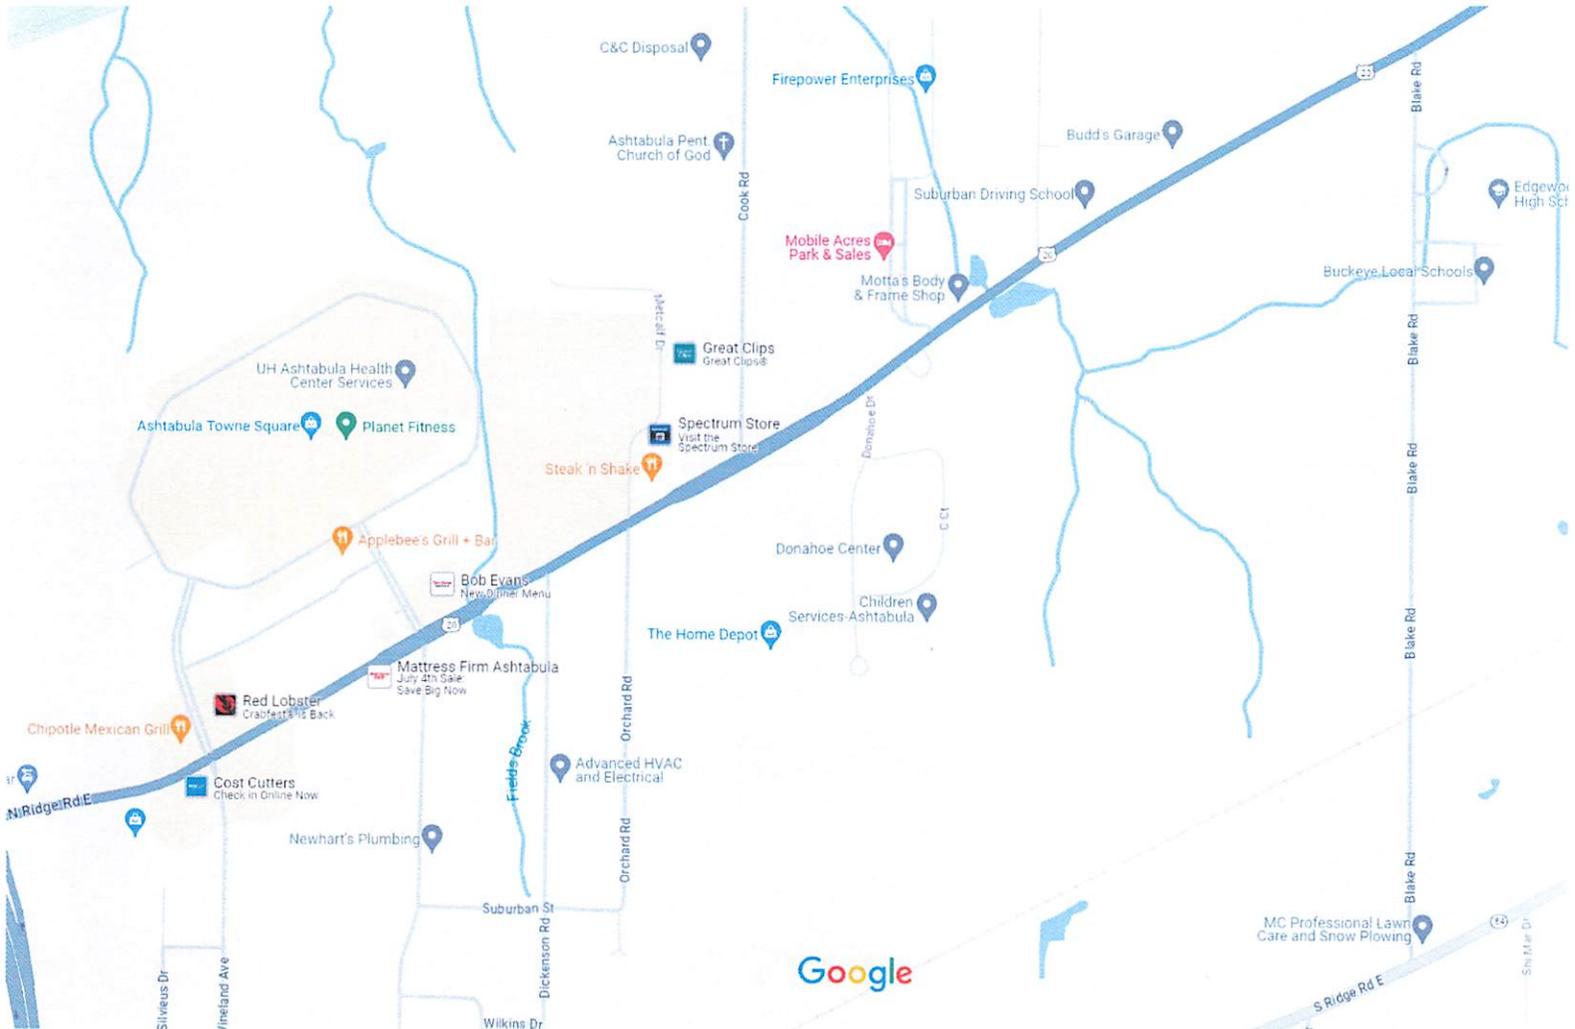

The County has valued the subject property at \$1,097,900, which equates to a value of \$59.46/sf of net rentable building area.

G) VALUATION CONCLUSION

COUNTY'S 2023 VALUATION	\$1,097,900 (\$59.46/sf)
2023 INCOME APPROACH – ACTUAL	NEGATIVE
2023 PRO FORMA	\$574,000
SALES COMPARISON APPROACH	\$750,000
PROPERTY OWNER'S 2020 VALUATION	\$750,000

The 2023 County's valuation equates to a value of \$59.46/sf. The current assessment is in excess of the fair market value of the subject real property. The subject property is a smaller strip center. The building was eighteen (18) years old as of tax lien date. Based upon market conditions, the Property Owner contends that the value of the subject property would be \$750,000.

Based upon the foregoing, the Property Owner submits, as of January 1, 2023, that the subject property had a total fair market value no greater than \$750,000. The total decrease asked for in fair market value asked is \$347,900.

Key Takeaways

- The Cleveland retail market stayed healthy in the first quarter of 2023
- Vacancy saw a decrease of 20bps to 7.9%
- Developments totaling roughly 193,000 SF are currently in the pipeline.
- The overall average market asking rental rate increased to \$10.38 psf (NNN).

Retail Ends Year Strong

The retail market posted a positive net absorption of 204,064 sq. ft. Although economic conditions have seemed less than desirable, the retail sector has not been hit as hard. Consumers have been watching the way they spend money and there definitely has been a pullback in their personal spending. Overall asking rents for the quarter increased slightly to \$10.37. The US consumer confidence index was Down from a high of 109 experienced in December 2022 to 104.2 in March 2023. The Federal Reserve has signaled that the rate hikes will be paused, but that does not mean they will not give rate hikes in the future depending on how the overall economy continues to improve or worsen. Depending on the current and incoming economic headwinds, consumer confidence could weaken, but that could change depending on how the summer plays out. Retail sales volume has seen some declines over the last 9 months after experience a slight uptick in 2021-22. Due to lending conditions, sales could remain down in the near term, but should begin to level out in the long term to more historical norms.
